

A Daffodil Show on the Lakeshore

Open to the public
Saturday, May 5, 2018
Noon to 5:00 PM
AND Sunday, May 6
Noon to 4:00 PM

The Public is invited. Admission is free.

**Entries accepted Friday, May 4 from 5 – 9 PM
Saturday, May 5 from 7:30 – 9 AM**

Anyone who grows daffodils may enter

**Assistance provided at the show
Most daffodils may be entered
in more than one class**

**Sponsored by
Town and Country Garden Club
a member club of
The Garden Club of America**

**in cooperation with
The Midwest Daffodil Society**

**Ellwood H. May Environmental Park
Maywood Ecology Center
3615 Mueller Road
Sheboygan, WI 53083
(920) 459-3906**

Schedule approved by the American Daffodil Society

GENERAL RULES

1. Entries may be made on Friday, May 4, 2018 from 5:00PM through 9:00PM and from 7:30AM to 9:00AM on Saturday, May 5. Anyone not assisting with staging and judging must be off the show floor by 9:00AM. **This rule will be strictly enforced.**
2. Entry cards for exhibits will be available at the show or in advance from the Show Chairman (see page 15). Only the top half of the entry card needs to be filled in. Fold the bottom up.
3. Entries, awards, and ribbons may not be removed until after 4:00 PM but must be removed before 5:00 PM on Sunday, May 6, 2018.

RULES FOR HORTICULTURAL EXHIBITS

ENTRIES

NOTE: All entries, except container-grown entries in Section K, should be cut at ground level (or below, if deemed appropriate for the entry). Stems are evaluated during judging.

4. All classes are open to anyone who grows daffodils except where specified otherwise (Classes E31, O06 – 07, and O21 – 23. Also see Section Y, Youth).
5. An exhibitor may make as many entries as desired in any class provided each entry is a different cultivar or species or an entirely different collection of cultivars and/or species.
6. Flowers must have been grown in the open by the exhibitor, except for miniatures and daffodils grown and shown in their containers, which may be grown in protected areas.
7. Wedging material and holders will be furnished. Except for daffodils grown and shown in their containers, no daffodil foliage is permitted.
8. All collections of 5 or more stems must be exhibited with each stem in a separate container.

LABELING

9. Each cultivar or species must be correctly labeled with its name (or seedling number), division, and color code EXCEPT those in Section U (Unnamed/Unknown). The originator's name must appear on the label in American-bred classes except seedlings shown by the originator. The originator is the person who first flowered the bulb regardless of who made the cross and/or planted the seed.
10. Incorrectly named entries will not be judged. Correct classification and labeling shall be the responsibility of the exhibitor. Assistance will be available.
11. No label may be changed or specimen(s) added, removed, altered, or substituted after judging has begun or after an award has been placed.

STANDARDS, INTERMEDIATES, MINIATURES, AND SEEDLINGS

NOTE: A standard daffodil is any cultivar that is considered too large to be a miniature.

12. An intermediate daffodil is a standard daffodil in divisions 1, 2, 3, 4, or 11 having a single floret whose diameter is typically greater than 50 mm through 80 mm. Intermediate daffodils may be entered in classes for standard daffodils as well as classes reserved for intermediates.
13. A miniature daffodil is any cultivar on the current ADS Approved List of Miniature Cultivars. (See Historic Section H for exceptions). Also, any named, numbered, or species daffodil that appears graceful, with all its parts proportionately small, may be exhibited in Miniatures classes and is eligible for all ADS awards, except that only numbered seedlings shown by the originator are eligible for the ADS Miniature Rose Ribbon. The judges may decline to judge any exhibit containing an unapproved miniature that they consider too large for these classes. **Miniature daffodils may be shown only in classes for miniatures in Sections H, K, M, N, O, S, U, W, Z, and Y.**
14. A seedling is a daffodil that has not yet received an official cultivar name. Blooms of seedlings may be exhibited in all classes for named cultivars. All seedlings must be identified by a number designation assigned by the originator. If the exhibitor is not the originator, the name of the originator must be included as part of the identification.

AWARDS

15. Each stem in an exhibit of cut flowers receiving an ADS Award must score 90 or more on the appropriate ADS Scale of Points.
16. Only one first, one second, and one third award may be given in each class. Honorable mention awards may also be given if merited but only if first, second, and third have been awarded. First, second, third, and honorable mention awards may be withheld by the judges if in their opinion an exhibit is not worthy. If a blue ribbon (first place) has been awarded in a class eligible for an ADS ribbon, the ADS Award may not be withheld.

17. The decisions of the judges are final. If an error made by an exhibitor is discovered in an exhibit after completion of judging, any award placed thereon shall be forfeited. If an error is discovered before the judging is completed, the class must be rejudged.

MISCELLANEOUS

18. The Show Committee reserves the right to subdivide a class by cultivar or color code when there are three or more worthy exhibits of the same cultivar or color code and if a sufficient number of worthy exhibits is left in the class. Species may be subdivided by their botanical sections (see descriptions toward the end of this schedule). Also see Sections C, K, and Y.
19. The Royal Horticultural Society System of Classification will be used. The labeling authority is *Daffodils to Show and Grow* as amended each year in the December *ADS Daffodil Journal* supplemented by the current information in the American Daffodil Society’s online database DaffSeek.org.
20. In the class descriptions, the words “pink cup,” etc. define classes where that color is solid, for example 2W-P, or present in two adjacent zones, for example 2W-GPP. The words “pink in cup,” etc. are used for classes that include both solid and rimmed cups of the same color. “Colored” is any color but white. A reverse bicolor has a predominantly yellow perianth and a predominantly white cup where “predominantly” means at least two adjacent zones must be coded the designated color.

ADS Point Scale for Judging Cut Specimens			
	Cultivar	Species	Historic
Condition	20	50	40
Form	25	15	15
Substance and Texture	15	10 (substance)	5
		5 (texture)	5
Color	15	10	15
Pose	15	5	5
Stem		5	5
Size	10	0	10
TOTAL	100	100	100

For miniature daffodils, both cut specimens and container grown, the judges will substitute “Form and Grace” for “Form.”

In exhibits of 3 of a kind, the judges may deduct up to 5 points for lack of uniformity.

ADS Scale of Points for Judging Container-Grown Exhibits	
Exhibit as a Whole	35
Symmetry with uniform development of each plant	20
Floriferousness	10
Condition and correctness of container and label	5
Bloom	55
Condition	10
Form – typical of the cultivar	10
Substance and texture	10
Color	10
Pose	5
Stem	5

Foliage	10
Condition of foliage	5
Color of foliage	5
TOTAL	100

SECTIONS A & B — STANDARD DAFFODILS

SECTION A – A single stem of a standard cultivar or species.

SECTION B – Three stems of a standard cultivar or species.

Division 1 – Trumpet Daffodil Cultivars	Class	Class
Yellow perianth, yellow trumpet	A101	B101
Colored perianth, orange or red trumpet	A102	B102
Yellow perianth, pink in trumpet	A103	} B103
Reverse bicolor	A104	
White perianth, yellow or orange trumpet	A105	B105
White perianth, pink in trumpet	A106	B106
White perianth, white trumpet	A107	B107
Any other color combination	A108	B108

Division 2 – Large-Cupped Daffodil Cultivars		
Yellow perianth, yellow cup	A201	B201
Colored perianth, orange or red cup	A202	B202
Yellow perianth, orange- or red-rimmed cup	A203	B203
Yellow perianth, pink in cup	A204	B204
Reverse bicolor	A205	B205
White perianth, predominantly yellow cup	A206	} B206
White perianth, yellow-rimmed cup	A207	
White perianth, predominantly orange or red cup	A208	} B208
White perianth, orange- or red-rimmed cup	A209	
White perianth, predominantly pink cup	A210	} B210
White perianth, pink-rimmed cup	A211	
White perianth, white or GWW cup	A212	B212
Any other color combination	A213	B213

Division 3 – Small-Cupped Daffodil Cultivars		
Yellow perianth, yellow cup	A301	B301
Yellow perianth, orange or red cup	A302	} B302
Orange perianth, orange or red cup	A303	
Yellow perianth, orange- or red-rimmed cup	A304	B304
Yellow perianth, pink in cup	A305	B305
Reverse bicolor	A306	B306
White perianth, yellow cup	A307	} B307
White perianth, yellow-rimmed cup	A308	
White perianth, orange or red cup	A309	B309
White perianth, orange- or red-rimmed cup	A310	B310
White perianth, pink in cup	A311	} B311
White perianth, white or GWW cup	A312	
Any other color combination	A313	B313

Division 4 – Double Daffodil Cultivars	Class	Class
Normally One Bloom to a Stem		
Yellow perianth, yellow petaloids	A401	} B401
Colored perianth, orange or red petaloids	A402	
Yellow perianth, pink in petaloids	A403	} B403
Reverse bicolor	A404	
White perianth, yellow petaloids	A405	B405
White perianth, orange or red petaloids	A406	B406
White perianth, pink in petaloids	A407	B407
White perianth, white petaloids	A408	B408
Normally More than One Bloom to a Stem		
Yellow perianth, yellow petaloids	A409	} B409
Yellow perianth, petaloids colored other than yellow	A410	
White perianth, colored petaloids	A411	} B411
White perianth, white petaloids	A412	
Any other color combination, one or more blooms per stem	A413	B413

Division 5 – Triandrus Daffodil Cultivars		
Yellow perianth, yellow cup	A501	} B501
Colored perianth, orange, red, or pink cup	A502	
Reverse bicolor	A503	B503
White perianth, yellow cup	A504	} B504
White perianth, orange or red cup	A505	
White perianth, pink in cup	A506	} B506
White perianth, white cup	A507	
Any other color combination	A508	B508

Division 6 – Cyclamineus Daffodil Cultivars		
Yellow perianth, yellow cup	A601	B601
Colored perianth, orange or red cup	A602	B602
Yellow perianth, pink in cup	A603	} B603
Reverse bicolor	A604	
White perianth, yellow cup	A605	} B605
White perianth, orange or red in cup	A606	
White perianth, pink in cup	A607	} B607
White perianth, white cup	A608	
Any other color combination	A609	B609

Division 7 – Jonquilla or Apodanthus Daffodil Cultivars		
Yellow perianth, yellow cup	A701	B701
Yellow perianth, orange or red cup	A702	B702
Orange perianth, orange or red cup	A703	B703
Colored perianth, pink in cup	A704	B704
Reverse bicolor	A705	B705
White perianth, yellow, orange, or red cup	A706	B706
White perianth, pink in cup	A707	B707
White perianth, white cup	A708	B708
Any other color combination	A709	B709

Division 8 – Tazetta Daffodil Cultivars

Yellow perianth, yellow cup	A801	}	B801
Yellow perianth, orange or red in cup	A802		
Reverse bicolor or colored perianth with pink in cup	A803		B803
White perianth, yellow cup	A804		B804
White perianth, orange or red in cup	A805		B805
White perianth, pink in cup	A806	}	B806
White perianth, white cup	A807		
Any other color combination	A808		B808

Division 9 – Poeticus Daffodil Cultivars

White perianth, eye green	A901	B901
White perianth, eye any other color	A902	B902

Division 10 – Bulbocodium Daffodil Cultivars – Any cultivar

A1001	B1001
-------	-------

Division 11 – Split-Corona Daffodil Cultivars**Normally One Bloom Per Stem**

11a Colored perianth, yellow, orange, or red cup	A1101	B1101	
11a Reverse bicolor or colored perianth with pink in cup	A1102	B1102	
11a White perianth, yellow, orange, or red cup	A1103	B1103	
11a White perianth, pink in cup	A1104	}	B1104
11a White perianth, white cup	A1105		
11a Any other color combination	A1106	B1106	
11b Papillon daffodil, Any cultivar	A1107	B1107	

Normally More Than One Bloom Per Stem

Colored perianth	A1108	}	B1108
White perianth	A1109		

Division 12 – Other Daffodil Cultivars

Normally one bloom per stem, colored perianth	A1201	}	B1201
Normally one bloom per stem, white perianth	A1202		
Normally more than one bloom per stem, any cultivar	A1203		B1203

Division 13 – Daffodils Distinguished Solely by Botanical Name

Any species or species hybrid, normally one bloom to a stem	A1301	B1301
Any species or species hybrid, normally more than one bloom to a stem	A1302	B1302

SECTION C – CLASSIC DAFFODILS

This section is open to all STANDARD cultivars introduced from 1940 to 1969 inclusive. All cultivars shall be labeled with name, division number, color code, AND year of registration (or introduction). The date given in *Daffodils to Show and Grow* or the *International Daffodil Register and Classified List 2008* and its supplements will be the authority. The Classification Committee may subdivide each class by decade and/or division, regardless of the number or quality of exhibits in each subdivision prior to judging. Daffodils in this section will be judged using the cultivar scale.

	Class
One stem, any division, with yellow perianth	C1
One stem, any division, with white perianth	C2
Three stems of one cultivar, any division, with yellow perianth	C3
Three stems of one cultivar, any division, with white perianth	C4
Collection of 5 different cultivars (may be placed with standard collections)	E21

SECTION E — STANDARD DAFFODIL COLLECTIONS

These classes call for one stem of each cultivar/species unless specified otherwise.

	Class
Five different division 1 cultivars.	E01
Five different division 2 cultivars.	E02
Five different division 3 cultivars.	E03
Five different division 4 cultivars.	E04
Five different division 5 cultivars.	E05
Five different division 6 cultivars.	E06
Five different division 7 cultivars.	E07
Five different division 8 cultivars.	E08
Five different division 9 cultivars.	E09
Five different division 10 cultivars.	E10
Five different division 11 cultivars.	E11
Five different division 12 cultivars.	E12
Five different division 13 species.	E13
Five different intermediate cultivars.	E20
Five different classic cultivars.	E21
Five different pink-cupped and/or pink-in-cup cultivars.	E22
Five different predominantly white cultivars.	E23
Five different red- and/or orange-cupped cultivars. Other-colored eyes permitted.	E24
Five different predominantly yellow cultivars.	E25
ADS Maroon Ribbon – Five different reverse-bicolor cultivars.	E26
ADS Red-White-Blue Ribbon – Five different American-bred cultivars. For correct labeling procedures, see Rule No. 9.	E27
Marie Bozievich Ribbon – Twelve different cultivars and/or species from at least four RHS divisions.	E28
Elise Havens Ribbon – Twelve different cultivars from at least three divisions from RHS divisions 5 through 10.	E29
Tom D. Throckmorton Ribbon – Fifteen cultivars and/or species from fifteen different RHS classifications.	E30
Carey E. Quinn Award – Twenty-four cultivars and/or species from at least five RHS divisions. First-time winners may receive the Silver Quinn Medal. Former winners receive the Quinn Ribbon. This class is open only to ADS members.	E31

Robert Spotts Ribbon – Five different cultivars in which green is the predominant color in the perianth and/or the corona. NOTE: see the Miniature section for entering a collection of five different miniature cultivars. The Robert Spotts Ribbon is awarded to the better of either the standard or miniature collection. E32

SECTION H – HISTORIC DAFFODILS

This section is open to all cultivars, i.e., not species, introduced or in gardens before 1940. All cultivars shall be labeled with name, division number, color code, AND year of registration (or introduction). The earliest date shown in the American Daffodil Society’s online database DaffSeek.org will be the authority. Winners of the Historic single stem, 3-stem, and collection of 5 are eligible for consideration for the Gold, mini-Gold, White- mini-White, and Purple Ribbons, in which case they are to be judged on the Cultivar scale.

NOTE: Miniature daffodils registered prior to 1940, but removed from the ADS Approved Miniature List over time, shall be eligible for entry in this Historic Section class for Miniatures-- and only in this Historic Section. These “de-listed” cultivars include W. P. Milner, Rip van Winkle, Colleen Bawn, Agnes Harvey, Rockery Beauty, Pencrebar, and Cobweb. They are eligible for all Historic Awards.

	Class
One stem, standard daffodil, before 1850	H01
One stem, standard daffodil, 1850-1879	H02
One stem, standard daffodil, 1880-1899	H03
One stem, standard daffodil, 1900-1909	H04
One stem, standard daffodil, 1910-1919	H05
One stem, standard daffodil, 1920-1929	H06
One stem, standard daffodil, 1930-1939	H07
One stem, miniature daffodil	H08
Three stems of one standard daffodil cultivar	H09
Three stems of one miniature daffodil cultivar	H10
Five different standard cultivars, one stem of each	H11

SECTIONS I & J — INTERMEDIATE DAFFODILS

SECTION I – A single stem of a standard cultivar.

SECTION J – Three stems of a standard cultivar.

	Class		Class
Division 1, Colored perianth	I101	}	J101
Division 1, White perianth	I102		
Division 2, Colored perianth	I201	}	J201
Division 2, White perianth	I202		
Division 3, Colored perianth	I301	}	J301
Division 3, White perianth	I302		
Division 4, Any cultivar	I401		J401
Division 11, Colored perianth	I1101	}	J1101
Division 11, White perianth	I1102		
Five different intermediate cultivars (may be placed with standard collections)			E20

SECTION K – CONTAINER-GROWN DAFFODILS

Blooms are to be grown in and exhibited in a container. All bulbs in any one container must be of the same cultivar or species. Container-grown daffodils may be grown in protected areas. No bloom or exhibit in this section shall be eligible for any ADS award other than the ADS awards for container-grown daffodils. Rule No. 18 is extended to permit subdividing classes by division.

	Class
Standard daffodils – named cultivars or seedlings (no species)	K1
Miniature daffodils – named cultivars or seedlings (no species)	K2
Species and species hybrid daffodils. All sizes of species and species hybrids are eligible for this class.	K3

SECTIONS M & N – MINIATURE DAFFODILS

SECTION M – Single stem of a miniature cultivar or species.

SECTION N – Three stems of a miniature cultivar or species.

	Class	Class
Division 1 – Trumpet Daffodil Cultivars		
Yellow perianth	M101	N101
White perianth	M102	N102
Division 2 – Large-Cupped Daffodil Cultivars		
Yellow perianth	M201	} N201
White perianth	M202	
Division 3 – Small-Cupped Daffodil Cultivars		
Yellow perianth	M301	N301
White perianth, cup yellow, orange, or red	M302	} N302
White perianth, pink in cup	M303	
White perianth, white cup	M304	
Division 4 – Double Daffodil Cultivars		
Any cultivar	M401	N401
Division 5 – Triandrus Daffodil Cultivars		
Yellow perianth	M501	N501
White perianth	M502	N502
Division 6 – Cyclamineus Daffodil Cultivars		
Yellow perianth, yellow cup	M601	} N601
Yellow perianth, any other cup color	M602	
White perianth, white cup	M603	} N603
White perianth, any other cup color	M604	
Division 7 – Jonquilla or Apodanthus Daffodil Cultivars		
Two or more florets		
Yellow perianth, yellow cup	M701	} N701
Yellow perianth, orange or red in cup	M702	
Y/W perianth	M703	
White perianth	M704	N704
Single floret		
Yellow perianth	M705	N705
White perianth	M706	N706
Division 8 – Tazetta Daffodil Cultivars		
Yellow perianth	M801	N801
White perianth, cup yellow, orange, or red	M802	} N802
White perianth, pink in cup	M803	
White perianth, white cup	M804	
Division 9 – Poeticus Daffodil Cultivars		
Any cultivar	M901	N901
Division 10 – Bulbocodium Daffodil Cultivars		
Yellow perianth, funnel cup diameter 25 mm or greater	M1001	} N1001
Yellow perianth, petunoid cup diameter 25 mm or greater	M1002	
White perianth, funnel cup diameter 25 mm or greater	M1003	
White perianth, petunoid cup diameter 25 mm or greater	M1004	
Yellow perianth, funnel cup diameter under 25 mm	M1005	} N1005
Yellow perianth, petunoid cup diameter under 25 mm	M1006	
White perianth, funnel cup diameter under 25 mm	M1007	
White perianth, petunoid cup diameter under 25 mm	M1008	
Division 11 – Split-Corona Daffodil Cultivars		
Yellow perianth	M1101	} N1101
White perianth	M1102	

	Class	Class
Division 12 – Other Daffodil Cultivars		
Yellow perianth, yellow cup	M1201	} N1201
Yellow perianth, cup any other color	M1202	
White perianth, cup yellow, orange, or red	M1203	} N1203
White perianth, pink in cup	M1204	
White perianth, white cup	M1205	
Division 13 – Daffodils Distinguished Solely by Botanical Name		
Ganymedes section	M1301	N1301
Pseudonarcissus section	M1302	N1302
Jonquilla section	M1303	N1303
Apodanthus section	M1304	N1304
Tazetta section	M1305	N1305
Bulbocodium section	M1306	N1306
Any other section	M1307	N1307

SECTION O – OTHER EXHIBITS of MINIATURES

	Class
Five cultivars or seedlings, one stem each (no species). This class is eligible for the ADS Lavender Ribbon.	O01
Five cultivars, seedlings, or species, one stem each. This class is eligible for the ADS Lavender Ribbon.	O02
Five stems, each one from a different division. This class is eligible for the ADS Lavender Ribbon.	O03
ADS Miniature Red-White-Blue Ribbon – Five cultivars or seedlings of American breeding, one stem each. For correct labeling procedure, see Rule No. 9. This class is eligible for the ADS Lavender Ribbon.	O04
ADS Delia Bankhead Ribbon – Nine cultivars and/or species, one stem each from at least three different RHS divisions.	O05
Roberta C. Watrous Award – Twelve cultivars and/or species of miniature daffodils from at least three RHS divisions. First-time winners may receive the Silver Watrous Medal. Former winners receive the Watrous Ribbon. This class is open only to ADS members.	O06
ADS Harold Koopowitz Miniature Collection Ribbon – Twenty-four cultivars and/or species, one stem each, from at least five RHS divisions. This class is open only to ADS members.	O07
Robert Spotts Ribbon – Five different cultivars in which green is the predominant color in the perianth and/or the corona. NOTE: see the Standard section for entering a collection of five different standard cultivars. The Robert Spotts Ribbon is awarded to the better of either the standard or miniature collection.	O08
 Hybridizers' Classes; Exhibitors must be ADS members. All flowers must be considered appropriate for the ADS Approved List of Miniature Daffodils for an award to be given. Identification of all blooms in the next three classes, both named and numbered, must be concealed until after judging. To facilitate the selection of candidates for the Miniature Rose Ribbon, seedlings are to be marked by a check on the card facing the judges. All flowers must be hybridized and originated by the exhibitor. Flowers may be from any division.	
ADS 3 Miniatures by Hybridizer Ribbon – Three cultivars, one stem each.	O21
ADS 6 Miniatures by Hybridizer Ribbon – Six cultivars, one stem each.	O22
ADS 12 Miniatures by Hybridizer Ribbon – Twelve cultivars, one stem each.	O23

SECTION S — SMALL GROWERS' CLASSES

This section is open to exhibitors growing **50 or fewer cultivars and/or species**. Entries may be single stems or three stems of the same cultivar. **NO UNNAMED/UNKNOWN CULTIVARS MAY BE ENTERED IN THIS SECTION** (see Section U). Class numbers follow the system used in Sections A and B (standard daffodils) and Sections M and N (miniature daffodils) but must be preceded by SG. Examples: SG A101 or SG N601.

SECTION U— UNNAMED/UNKNOWN DAFFODILS

Daffodils of any kind, for which their correct names are unknown, may be entered here. Entries may be single stems or three of the same kind of daffodil. This section will be subdivided by the Committee according to flower color and/or perceived divisions. Entries made in this Section are not eligible for ADS awards, nor do any blue ribbons won in this section count toward the Silver Ribbon (for most blue ribbons won).

SECTIONS W and X — WISTER AWARD WINNERS

SECTION W – A single stem of a Wister Award winner.

SECTION X – Three stems of a Wister Award winner.

Sections will be subdivided by cultivar, division, perianth color, or other appropriate criteria where warranted.

WINNERS OF THE JOHN AND GERTRUDE WISTER AWARD

The American Daffodil Society recognizes outstanding garden daffodils with the John and Gertrude Wister Award. This award was first presented in 1985. Criteria for this award are:

1. That the cultivar must be a good grower. It should have a floriferous habit.
2. It should have long-lasting bloom with clean color, showy at a distance, and reasonably sunfast.
3. Foliage should be vigorous, resistant to disease and frost damage.
4. Stem should be taller than foliage, strong and sturdy.
5. Bulb should be resistant to basal rot and not prone to splitting up. (Too-rapid increase can be a problem, such as in a cultivar where the blooms deteriorate dramatically in size and substance after being in the ground for several years.)
6. Emphasis should be on garden performance, although it may be of show-table quality.
7. Cultivar should be readily available commercially.
8. The award may be given annually.

The following daffodils have received the Wister Award:

'Accent' 2 W-P

'Actaea' 9 W-YYR

'Bravoure' 1 W-Y

'Camelot' 2 Y-Y

'Barrett Browning' 3 WWY-O

'Brackenhurst' 2 Y-O

'Ceylon' 2 Y-O

'Chromacolor' 2 W-P

'Crackington' 4Y-O

'Dainty Miss' 7W-GWW

SECTION Y – YOUTH DIVISION

Open only to exhibitors 20 years of age or younger. Youth exhibitors are not restricted to this section; they may elect to enter other sections for which they qualify. Rule No. 18 is extended to permit subdividing Classes Y07, Y10, Y15, Y17, and Y18 by division.

Class

NEW AWARD for 2018: the Brooke Ager Youth Challenge Class Y00.

One stem of 'Pink Charm'. The designated cultivar will change yearly.

One standard stem, division 1, yellow perianth.	Y01
One standard stem, division 1, white perianth.	Y02
One standard stem, division 2, yellow perianth.	Y03
One standard stem, division 2, white perianth.	Y04
One standard stem, division 3.	Y05
One standard stem, division 4.	Y06
One standard stem, division 5, 6, 7, or 9.	Y07
One standard stem, division 8, yellow perianth.	Y08
One standard stem, division 8, white perianth.	Y09
One standard stem division 10, 11, 12, or 13.	Y10
Three stems of one standard daffodil, division 1.	Y11
Three stems of one standard daffodil, division 2.	Y12
Three stems of one standard daffodil, division 4.	Y13
Three stems of one standard daffodil, division 6.	Y14
Three stems of one standard daffodil, any other division.	Y15

Collection of five different standard daffodils.	Y16
One miniature stem, any division.	Y17
Three stems of one miniature daffodil, any division.	Y18
Collection of five different miniature daffodils.	Y19

AMERICAN DAFFODIL SOCIETY AWARDS

Gold Ribbon: Best standard cultivar or species, excluding Container-Grown Section.

White Ribbon: Best three stems of one cultivar or species of standard daffodils.

Purple Ribbon: Best collection of five different standard cultivars or species.

NOTE: The winners of the Historic single-stem, three-stem, and collection of five are eligible for consideration for the Gold, Mini-gold, White, Mini-white, and Purple ribbons, in which case they must then be judged by the Cultivar scale (page 4).

Rose Ribbon: Best standard seedling exhibited by its originator, excluding the Container-Grown Section.

Maroon Ribbon: Best collection of five different standard reverse-bicolor cultivars, one stem each, any division or divisions (Class E26).

Red-White-Blue Ribbon: Best collection of five different standard cultivars, one stem each, of American breeding or origin, any division or divisions (Class E27).

Marie Bozievich Ribbon: Best collection of twelve different cultivars and/or species of standard daffodils from at least four RHS divisions (Class E28).

Elise Havens Ribbon: Best collection of twelve cultivars of standard daffodils from not less than three divisions of RHS divisions 5 through 10 (Class E29).

Tom D. Throckmorton Ribbon: Best collection of fifteen cultivars and/or species of standard daffodils from fifteen different RHS classifications (Class E30).

Carey E. Quinn Award: Silver Medal or Ribbon for a collection of twenty-four different cultivars and/or species of standard daffodils from at least five divisions. The medal may be won only once by any exhibitor in all ADS local and Regional shows. A former winner may exhibit in this class but may receive only the Quinn Ribbon. Open only to ADS members. (Class E31).

Robert Spotts Ribbon: Best collection of five standard OR five miniature cultivars in which green is the predominant color in the perianth and/or the corona (Classes E32 and O08).

Miniature Gold Ribbon: Best miniature cultivar or species, except for entries in the Container-Grown Section.

Miniature White Ribbon: Best three stems of the same miniature cultivar or species.

Miniature Rose Ribbon: Best miniature seedling exhibited by its originator, excluding the Container-Grown Section.

Lavender Ribbon: Best collection of five different miniature cultivars and/or species (Classes O01, O02, O03, O04 and Y19).

Miniature Red-White-Blue Ribbon: Best collection of five different miniature cultivars, one stem each, of American breeding or origin, any division or divisions (Class O04).

Delia Bankhead Ribbon: Best collection of nine miniature cultivars and/or species, one stem each, from at least three different RHS divisions. (Class O05)

Roberta C. Watrous Award: Silver Medal or Ribbon for a collection of twelve different cultivars and/or species of miniature daffodils from at least three divisions. This medal may be won only once by any exhibitor in all ADS local and Regional shows. A former winner may exhibit in this class but may receive only the Watrous Ribbon. Open only to ADS members. (Class O06).

Harold Koopowitz Miniature Collection Ribbon: Best collection of twenty-four different miniature cultivars and/or species from at least five divisions. Open only to ADS members. (Class O07).

Three Miniatures by Hybridizer Ribbon: Best exhibit of three different cultivars of miniature daffodils, any divisions, hybridized and originated by the exhibitor. Open only to ADS members. (Class O21)

- Six Miniatures by Hybridizer Ribbon:** Best collection of six different cultivars of miniature daffodils, any divisions, hybridized and originated by the exhibitor. Open only to ADS members. (Class O22)
- Twelve Miniatures by Hybridizer Ribbon:** Best collection of twelve different cultivars of miniature daffodils, any divisions, hybridized and originated by the exhibitor. Open only to ADS members. (Class O23)
- Youth Ribbon:** Best cultivar or species exhibited in the Youth Section.
- Youth Best of Three Ribbon:** Best three stems of one cultivar or species, standard or miniature, in the Youth Section (Classes Y11 through Y15 and Y18).
- Youth Collection Ribbon:** Best collection of five different cultivars and/or species, all standards or all miniatures, in the Youth Section (Classes Y16 and Y19).
- Brooke Ager Youth Challenge Class Ribbon:** Best single-stem entry of ‘Pink Charm’ (Class Y00).
- Small Growers Ribbon:** Best cultivar or species exhibited in the Small Grower Section. Awarded to ONE STEM only, although it may be part of a three-stem entry.
- Historic Bloom Ribbon:** Best pre-1940 cultivar, standard or miniature, in the Historic Section.
- Historic Best of Three Ribbon:** Best three stems of one pre-1940 cultivar, standard or miniature, in the Historic Section.
- Historic Daffodil Collection of Five Ribbon:** Best collection of five different pre-1940 standard cultivars in the Historic Section.
- Best Classic Ribbon:** Best standard cultivar from the entire Classic Section.
- Best Classic Single-Stem Ribbon:** Best cultivar from the classes of single stems of standard cultivars in the Classic Section (Classes C1 and C2).
- Best Classic Three-Stem Ribbon:** Best three stems of one classic standard cultivar in the Classic Section.
- Best Classic Collection of Five Ribbon:** Best collection of five different classic standard cultivars from the Classic Section.
- Best Intermediate Ribbon:** Best intermediate-size cultivar from the Intermediate Section, any standard collection, or from any standard entry in the Youth or Small Growers Sections.
- Best Intermediate Three-Stem Ribbon:** Best set of three intermediate cultivars in the Intermediate Section, or in standard collection classes of sets of three.
- Best Intermediate Collection of Five Ribbon:** Best collection of five different intermediate cultivars in the Intermediate Section.
- Standard Container-Grown Ribbon:** Best standard container-grown named or seedling daffodil exhibit in the Container-Grown Section.
- Miniature Container-Grown Ribbon:** Best miniature container-grown named or seedling daffodil exhibit in the Container-Grown Section.
- Species/Species Hybrid Container-Grown Ribbon:** Best species/species hybrid container-grown daffodil exhibit in Container-Grown Section.
- Silver Ribbon:** Awarded to the exhibitor winning the most first-place (blue) ribbons. Blue ribbons won in Section U may not be counted toward the Silver Ribbon.

TOWN AND COUNTRY GARDEN CLUB AWARDS

Special awards will be presented to the best unnamed/unknown daffodil in Section U and also to the best daffodil in Sections W and X (Wister Award winners). These may be a single-stem entry or a single stem from a three-stem entry.

THE SHOW COMMITTEE

Show Chair	Ray Rogers (920) 889-3466
Judges Chair	Ray Rogers/George Dorner
Setup/Takedown	Committee
Clerks Chair	To be determined
Entry/Placement Chair	Betty Kuplic
Hospitality Chair	Jeannine Battaglia
Publicity Chair	Lulu Lubbers
Signage Chair	Linda Adams

ACKNOWLEDGMENTS

Town and Country Garden Club gratefully thanks the Midwest Daffodil Society for their assistance with producing our shows.

Town and Country Garden Club also thanks the staff and Board of Maywood Environmental Park for their assistance and cooperation and for providing the Ecology Center as venue for the show.

ROYAL HORTICULTURAL SOCIETY SYSTEM OF CLASSIFICATION

For garden purposes, daffodils are classified in 13 divisions where the division number specifies the form and the letters (color code) specify the colors. For example:

1 W-Y = a trumpet daffodil with white perianth segments (“petals”) and yellow corona (“trumpet”).

2 Y-YYO = a large-cupped daffodil, all yellow except for a band of orange at corona (“cup”) rim.

11b W-O/Y/W = a papillon daffodil with white perianth segments and longitudinal bands of orange, yellow and white in the corona, with orange predominant.

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name, it should be assigned to Divisions 1–12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions.

DIVISION 1 — TRUMPET DAFFODIL CULTIVARS.

One flower to a stem; corona (“trumpet”) as long as or longer than the perianth segments (“petals”).

DIVISION 2 — LARGE-CUPPED DAFFODIL CULTIVARS

One flower to a stem; corona (“cup”) more than one-third, but less than equal to the length of the perianth segments (“petals”).

DIVISION 3 — SMALL-CUPPED DAFFODIL CULTIVARS

One flower to a stem; corona (“cup”) not more than one-third the length of the perianth segments (“petals”).

DIVISION 4 — DOUBLE DAFFODIL CULTIVARS

One or more flowers to a stem, with doubling of the perianth segments or the corona or both.

DIVISION 5 — TRIANDRUS DAFFODIL CULTIVARS

Characteristics of *N. triandrus* clearly evident; usually two or more pendent flowers to a stem; perianth segments reflexed.

DIVISION 6 — CYCLAMINEUS DAFFODIL CULTIVARS

Characteristics of *N. cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with a very short pedicel (“neck”).

DIVISION 7 — JONQUILLA AND APODANTHUS CULTIVARS

Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped, or flared, usually wider than long; flowers usually fragrant.

DIVISION 8 — TAZETTA DAFFODIL CULTIVARS

Characteristics of Section Tazettae clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading, not reflexed; flowers usually fragrant.

DIVISION 9 — POETICUS DAFFODIL CULTIVARS

Characteristics of *N. poeticus* and related species clearly evident; perianth segments pure white; corona very short or disc-shaped, not more than one-fifth the length of the perianth segments; corona usually with a green and/or yellow center and red rim, but sometimes wholly or partly of other colors; anthers usually set at two distinct levels; flowers fragrant.

DIVISION 10 — BULBOCODIUM DAFFODIL CULTIVARS

Characteristics of Section Bulbocodium clearly evident: usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsifixed (i.e., attached more or less centrally to the filament); filament and style usually curved.

DIVISION 11 — SPLIT-CORONA DAFFODIL CULTIVARS

Corona split – usually for more than half its length.

a) Collar Daffodils. Split-corona daffodils with the corona segments opposite the perianth segments; the corona segments usually in two whorls of three.

b) Papillon Daffodils. Split-corona daffodils with the corona segments alternate to the perianth segments; the corona segments usually in a single whorl of six.

DIVISION 12 — OTHER DAFFODIL CULTIVARS

Daffodil cultivars which do not fit the definition of any other division.

DIVISION 13 — DAFFODILS DISTINGUISHED SOLELY BY BOTANICAL NAME

SECTION TAPEINANTHUS

Autumn flowering; one to four flowers to a rounded stem; leaves very narrow, glaucous, not always present on flowering bulbs; flower ascending, yellow; corona absent or rudimentary; anthers widely exerted from the tube, much shorter than the filaments, dorsifixed.

SECTION SEROTINI

Autumn flowering; usually one to two flowers to a rounded stem; leaves very narrow, glaucous, not always present on flowering bulbs; perianth segments pure white, usually twisted; corona very short, yellow, orange, or green; anthers included in or slightly exerted from the tube, longer than the filaments, dorsifixed; flowers fragrant.

SECTION AURELIA

Autumn flowering; three to twelve flowers to a compressed stem; leaves flat, not channeled, glaucous; flowers white; corona rudimentary or absent; filaments unequal in length; anthers exerted from the tube, dorsifixed; flowers fragrant.

SECTION TAZETTAE

Autumn to spring flowering; three (rarely two) to twenty flowers to a usually compressed stem; leaves flat or channeled, usually glaucous; flowers white, yellow, or bicolored; anthers included in or slightly exerted from the tube, much longer than the filaments, dorsifixed; flowers fragrant. The rounded stem and green leaves of *N. aureus* atypical, also the orange corona of *N. elegans*.

SECTION NARCISSUS

Spring flowering; usually one flower (exceptionally two to four) to a compressed stem; leaves flat, not channeled, glaucous; perianth segments pure white; corona disc-shaped or very shallow, sometimes of a single color, but usually with base green, mid-zone yellow, and rim red or orange and often scarious; anthers partly exerted from the tube, much longer than the filaments, dorsifixed; flowers fragrant. This section covers *N. poeticus*.

SECTION JONQUILLA

Spring flowering; one to five (rarely eight) flowers to a rounded stem; leaves narrow or semi-cylindrical, green; flowers yellow, never white; perianth segments spreading or reflexed; corona usually cup-shaped, usually wider than long; anthers included in or partly exerted from the tube, much longer than the filaments, dorsifixed; flowers fragrant. The autumn flowering, green-flowered *N. viridiflorus* is atypical.

SECTION APODANTHI

Spring flowering; one flower or two to five to a somewhat compressed stem; leaves narrow, channeled, glaucous; flowers white or yellow, never bicolored; perianth segments spreading or slightly reflexed; corona cup-shaped, funnel-shaped, or flared, usually wider than long; anthers included in the tube, or three included and three exerted, much longer than the filaments, dorsifixed.

SECTION GANYMEDES

Spring flowering; one flower or two to six to an elliptical or cylindrical stem; flowers pendent, white, yellow, or somewhat bicolored; leaves flat or semi-cylindrical; perianth segments reflexed; corona cup-shaped (rarely campanulate); anthers three included in the tube, three exerted (often beyond the corona), equal to or much shorter than the filaments, dorsifixed. This section covers *N. triandrus*.

SECTION BULBOCODIUM

Autumn to spring flowering; one flower to a rounded stem; leaves narrow, semi-cylindrical; flowers white or yellow; perianth segments insignificant compared with the dominant corona; anthers widely exerted from the tube (often beyond the corona), much shorter than the filaments (which are usually curved), dorsifixed.

SECTION PSEUDONARCISSUS

Spring flowering; usually one flower to a more or less compressed or sometimes rounded stem; leaves flat or channeled, usually glaucous; flowers white, yellow, or bicolored; perianth segments usually spreading or inflexed; corona more or less cylindrical, often flared at mouth, yellow or white (never orange or red); anthers exerted from the tube, equal to or shorter than the filaments, sub-basifixed. The green leaves, rounded stem, and strongly reflexed perianth segments of *N. cyclamineus* and the two to four flowers to a stem of *N. longispathus* and *N. nevadensis* are atypical.

WILD HYBRIDS

Natural hybrids distinguished by botanical names are also assigned to this division.
